# Hajeera Khanum

Full stack developer | 5+ Years of Innovation in Tech

Dubai, United Arab Emirates

## Summary

As a Senior Software Engineer at Al Jazira Poultry Farm (owned by **Al Ain Farms**), a prominent name in the food and beverage industry, I have played a pivotal role in shaping and advancing technology initiatives at my organization with over 5+ years of experience and a **Master's degree** in Computer Science Engineering.

My core competencies include UI/UX front end development using HTML, CSS, JavaScript, and frameworks like React.js, Vue or Angular. Back-end technologies such as Node.js, Express.js,. Integrate with MySQL and third-party APIs databases and version control systems like Git. Strong understanding of software development lifecycle (SDLC)

and Agile methodologies

Scalable back-end services and APIs using technologies like Node.js, Python, Ruby, Java and PHP. Experience with RESTful APIs and web services.

As a Technical Lead and Full Stack Developer, I have also demonstrated my ability to design and work in an Agile/Scrum development process, develop, and maintain web applications from concept to deployment.
